

# Join a Worldwide Day of Action for Peace on Earth and Climate Justice

## Dec. 12, 11 am – 1 pm

***Bloomfield Post Office,  
Bloomfield Avenue and Montgomery St.,  
across from the Municipal Building***

During this holiday season, let's take action to oppose wars for oil in Iraq and Afghanistan and for a rapid shift from dirty fossil fuels to clean, renewable energy.

On December 12<sup>th</sup> there will be thousands of actions all over the world calling for these things. This will be right in the middle of the United Nations Climate Change Conference in Copenhagen, Denmark. Our actions on this day will send a clear message to the negotiators from 192 nations at that conference: **the world wants a treaty that works, one that reduces carbon dioxide and other gases that are dangerously heating up our atmosphere!**

A rapid shift to a clean energy economy will create millions of jobs, clean up our air and water, end our oil addiction and rebuild our communities. It's what the U.S. needs to be about!

### **Join our vigil on Saturday, December 12<sup>th</sup>!**

***Stand up for peace and for climate and economic justice for all!***
